👤 Profile

I'm a software developer and HBO Bachelor student at Fontys University of Applied Sciences, with experience in web development, user support, and building practical digital products. I've worked on projects like landing pages, a web game, and a photography portfolio site, and I enjoy turning ideas into clean, user-friendly solutions.

📁 Professional Experience

02/2026 – Present
Riga, Remote

Latakko SIA(Nordic Tyre Group) [🔗](#)

Software Developer

Enhanced and maintained a warehouse web app. Provided service desk support and resolved user issues.

10/2024 – 07/2025
Remote

Piekrasta Rezidence

Web Developer

Designed and developed high-impact, responsive landing pages showcasing the benefits of purchasing apartments through the agency. Collaborated closely with the Marketing team to translate campaign goals into effective UI/UX designs and clear visual messaging. Implemented landing pages using HTML5, CSS3, JavaScript, and PHP, improving user engagement and overall conversion performance.
